You've probably heard his album on public radio in Mankato. John McAndrew - singer, songwriter, piano player and performer has had his songs charted on national radio and has performed with Exile, Reba McIntire, Acoustic Alchemy, Tanita Tickerum, Little Feat, The Whalers, Nancy Griffith and Maynard Ferguson to name a few. His first album, *Ordinary Men* and his more recent album simply titled *John McAndrew* showcase his writing and performing talents. Comparisons have been made to Ray Charles, Paul Simon and Mark Cohn. His song, *Like We Were Made of Gold*, has just been chosen as the theme song for the International Special Olympics.
